Click [here](#) to view your recent games

**Log in and click "Host a Game,"** but before you choose a trivia event to set up, go to the fine print below the Begin Event button.

**Click on the link at the very bottom,** which will take you to your recently hosted games!

Game data is preserved in the system for about six months before being archived.

Alternately: If you know the game code ("XXXX"), you can pull it up by **entering it in the url:**

[play.triviamafia.com/host/XXXX](https://play.triviamafia.com/host/XXXX) or [play.initialsgamelive.com/host/XXXX](https://play.initialsgamelive.com/host/XXXX)

If you no longer have the game code AND you can't see it in your recently hosted games, you'll have to reach out to the admin team (not the On-Calls) to have someone look it up on the back end.
